### FOLLOWING THE CLEANUP.

New Orleans Sends Printed Reminders to Its Citizens.

Recping the city in order from day to day, after the aunual cleanup, is a misappplied. Edwinston knew where problem which requires some ingenut ty. To ward off a retapse into care lessness on the part of its spring dean ed citizens the department of public property of New Orleans has recently issued a set of small folders called the "City Beautiful Series," which it is expected will be effective in producing results. These are printed in a style to make them attractive and interest ing and are unique as to contents. each case, as a practical part of the argument to is stated that the depart ment is determined to put an end to the throwing of papers and rubblets upon the streets and that stringent measures will be adopted to punish alviolators of the city ordinances upon

These warnings are distributed by the citizens' committee, which consists of representatives of the board of trade New Orleans Association of Commerce and other commercial organizations Each ward in the city also has a rep resentative on the committee, and the Women's club has rendered valuable assistance in circulating the folder-It is n teresting to note that each of the seventeen wards of New Orlean has a club devoted to the beautifying of its surroundings and that a representative from each precinct report progress at the ward meetings.

Small boys who tear "switches" from trees pointed about the jarkways of streets and delivery wagon drivers who allow their horses to make a prent of the long handing leaves of those same trees are honceforth to be the object of stellance of the streets and tree plant ing committee of the Municipal Art lengue of Chicago

Mrs. H. S. Newton, chateman of the unmittee spent a day inspecting the newly planted Carolina poplars which have recently been placed by the lengue along Warren avenue.

We want the streets of our city to took like some of those beautiful ave ques to large eitles of Europe, where the trees have become famous." said. "This we can accomplish if the trees are not molested. The greatest memore to the life of the trees is the intschievous box and the driver of the allibling horse. When we secure the co-operation of these two classes of in dividuals our object is assured."

To plant trees along the structure of the Metropolitan elevated railroad is
